Foreword by the FEI President

Welcome to Samorin, Slovakia for the FEI Endurance World Championships for Young Horses 2018.

FEI Endurance continues to captivate and impress upon audiences worldwide with the sheer control, stamina and teamwork required capturing the imaginations of many. It is the ultimate test of athleticism, where the mental and physical endurance of both horse and rider is of the paramount importance.

To continue the global growth of the discipline, it is imperative that we supply a foundation from which our young horses can flourish, and the FEI Endurance World Championships for Young Horses obliges this role; instilling values, providing experience and nourishing the vital relationship between horse and rider.

Samorin, a haven for Endurance, is the perfect backdrop from which to showcase this incredible sport. A discipline where, in order to compete at the highest level, outstanding athletic achievement is required and where partnerships must be both durable and resilient to triumph. The core of FEI Endurance, the unique bond between horse and rider, a connection which ensures the safety and good health of both participants – perfectly encapsulating the TwoHearts concept.

It is with great pleasure that over the next few days we bring together spectators and competitors alike to celebrate the up-and-coming talent within the FEI Endurance community. It is of prime importance that Championships like these are held to support, encourage and promote a new wave of FEI Endurance stars. Stars, who could one day grace the FEI World Equestrian Games™ stage, captivating the wider equestrian audience with their incredible athletic skill.

On behalf of the Fédération Equestre Internationale, I would like to thank the organisers, partners, volunteers and officials for their continued dedication to the development of our young horses. It is as a result of an unequalled investment of time, energy and commitment from our competitors and their support teams that our young horses have the perfect basis from which to grow – ensuring continued top-class sport which leaves audiences around the world in awe.

Foreword by the President of the Event

Dear Sports Friends, I am very happy that the x-bionic® sphere resort is continuing to organize equestrian events in 2018. This time we have a truly exceptional event ahead of us. After a world-class show jumping championship the riding season at the x-bionic® sphere resort continues with the FEI World Endurance Championship for Young Horses Samorin 2018. In this discipline Slovak equestrians have, over a long period, been achieving top results in world-class events and I am very pleased that, together, we can now cheer for them on home ground, where we are also happy to provide them with top-quality training facilities.

We are part of this magnificent sports event and it makes me proud as it is a sign of confirmation and appreciation for our previous achievements in the organization of equestrian events. I believe that this Young Horses championship will provide us with another opportunity to celebrate this beautiful sport together through grand victories and the fantastic atmosphere that we all will create for the equestrians. I also believe that the spectators coming to the event to support the athletes will enjoy themselves and leave with unforgettable memories.

I wish all the best to both the equestrians and the horses. I hope they will make the most of the conditions the x-bionic® sphere resort provides them with. I further hope that they will give their best to achieve the best results.

Finally, I would like to express my sincere gratitude to all our partners. This great event could never take place without you.
