**Jämsä** - Finland / 15-16 June 2012

**Nordic-Baltic Championship 2012**

**Jämsä - Finland / 15-16 June 2012**

Jämsä is a Finnish town, located in the province of Central-Finland. It is located just next to the country's second largest lake, Päijänne. The population is over 22 00 people. Jämsä surface area is 1823,91 km<sup>2</sup>. Of this area 252.59 km<sup>2</sup> is water. In Jämsä, the terrain is uneven und hilly. The terrain sets it's own challenges of the endurance riders and routes certainly is challenging for participants. If you get result in Jämsä, you can be more than proud of it !

Thank you Finland!

In Finland, the Endurance riding sport has been practiced as early as in the 1930's, but there was a break of almost 60 years until in 1987 the modern rule endurance riding competition called Pirkan ratsastus (Pirkka ride) took place. The route started from Teivo in Tampere and ended to Niinisalo. The competition was organized by Niinisalon ratsastajat (Niinisalo riders), and it was a two day competition. On the first day the route went from Teivo to Ikaalinen and on the second day, from Ikaalinen to Niinisalo. Among the riders, there was the grand old lady of the Finnish endurance riding, Ritva Lampinen, who also competes in Morva NBCH 2012!

In the 1990's the sport began to grow, and gradually the riding clubs that were focused on endurance riding were founded. Few of these first ones were Riemuratsukot (Joyriders), founded 1985 and Nummelan ratsastajat (Nummela riders), founded 1990. Nummelan ratsastajat was ten years later the foundation of the new riding club, Suomen Matkaratsastusseura (Finnish Endurance riding club). In and between of those years, there was some good times and some bad times, but still the club was maintaining their activity at least in a small scale.

Still, endurance events are focused in southern and central Finland. In 1990, the NBCH competition was held in Lohja, in 2008 it was held in Jämi and now, 2012, it is held in Jämsä. Big events like this have always boosted the activity in national level, even though these kind of events are a big financial burden to bear for a small riding club.

In international events, the Finnish riders have visited the fair and sparingly, as the distances are long and the costs high. In the other Nordic and Baltic countries Finns are also competing to some extent. In Finland there are about 10 international level riders. Finland had a team in WEG Stockholm 1990 and in Haag 1994 and in the world Championship in Dubai 1998. In Stockholm Ritva Lampinen on her finish horse made the 160 km with good result.

Johanna Strang-Ginouves participated in European Championships in France also with good results.

Enthusiasts have a total of about 400. The sport is, however, strongly growing and taking on the role. The Finns have already reached the European Championship and World Championship level at random, and of course, the direction is up and forward! We have a promising young rider, such as Joona Mickelsson, who performed well in December 2011 in ABU DHABI - Club and regional competitions are held once a month and the number of participants is usually between 20 and 30. Little by little, the northern Finns are discovering the sport and also the competitions are organized in the coming years also up in the north.

# HAVENS

## SLOBBER-MASH +EXTRA LINOL

- Original oat free mash with toasted linseed meal for a purifying action.
- Rich in vitamins and easy digestible fibres
  - With extra linoleic acid and sunflower oil
  - Ideal for horses with digestion problems, equine colic or (old) horses with chewing problems
  - Improves hoof and coat condition
  - Ideal for in vetgate due to its water-binding capacity

## POWER-PLUS MIX MUSCLE FITNESS

- Concentrated premium cereal mix with black oats and micronised maize and barley for horses in training and sport. Ensures extra power and strong and elastic muscles without fattening.
- Low protein level; to avoid overcharging the kidneys
  - High vitamin-levels (e.g. Vit. A., B., E., Biotine)
  - Contains extra electrolytes (ideal for intense training or in hot climates)

Gold, Silver, Bronze - Limited ed. Collection
